

Muhammad Riskal Fadhilla

Informatics Student | Junior IT Professional

Universitas Komputer Indonesia · Indonesia

riskalfadhilla@gmail.com · linkedin.com/in/riskal-fadhilla · github.com/riskalfadhilla

PROFILE

Saya memiliki latar belakang Teknik Informatika dengan ketertarikan pada software development, data, dan teknologi. Saya senang membangun solusi digital, mempelajari teknologi baru, dan menyelesaikan masalah melalui pendekatan yang praktis.

EDUCATION

Universitas Komputer Indonesia (UNIKOM)

Teknik Informatika · 2022 - 2026

Final Project / Thesis:

Pengenalan Citra Tulisan Tangan Bersambung Level Kata Menggunakan Arsitektur Hybrid CNN dan BiLSTM

SKILLS

Programming	Python, JavaScript, TypeScript
Web Development	React, Next.js, HTML, CSS
Database & Data	PostgreSQL, SQL, Prisma, Pandas
AI / Machine Learning	TensorFlow, Computer Vision, CNN, BiLSTM
Tools	Git, GitHub, VS Code
Other	API Integration, Debugging, Problem Solving, Teamwork

PROJECTS

Nay's Cake - Business Management System

[Next.js](#), [React](#), [TypeScript](#), [PostgreSQL](#), [Prisma](#)

A web application for managing products, stock, transactions, and business data for a local cake business.

Handwritten Text Recognition

[Python](#), [TensorFlow](#), [CNN](#), [BiLSTM](#), [CTC](#)

A machine learning project for recognizing handwritten words using a CNN-BiLSTM-CTC architecture.

CERTIFICATIONS

CCNAv7: Introduction to Networks

Cisco Networking Academy - Certificate of Completion

Gemini Certified Student

Google
